## Welcome to the Spring Edition of the Go-4 Nuge Letter!

### The News at Nuge

#### **\*\*CLOSED MEMORIAL DAY WEEKEND\*\***

The staff at Nugeland are taking a vacation!

We will be closed Friday May 25th through Monday the 28th

**All orders with weekend pickups must be placed by 5pm Thursday May 24th**

#### **\*\*UPCOMING PA CLASS\*\***

A weekend-long workshop preparing new and aspiring Production Assistants to work on film and commercial sets.

This 2-day class covers everything that new and aspiring Production Assistants (PA's) need to know to function productively on a film or commercial set.

Topics include:

- What the role of a PA involves
- Skills and characteristics required to excel as a PA
- How to break into the industry
- How to craft a professional-looking Production Assistant resume
- How to conduct yourself on set
- In-depth descriptions of the most common tasks performed by PA's & how to do them well
- The roles of other crew members, agency and client you will encounter on set
- Important industry terminology
- Hands-on tutorials explaining how to use relevant gear like walkie talkies, loading a box truck
- Tutorials on vehicles you may be asked to drive, like a pass van, box truck, etc
- Tutorials and take-home samples of paperwork like PC receipts and Timecards.
- Working for free and what you can expect to earn when you're getting paid
- Moving up into a department

Typical commercial PA makes between \$200-\$300/day...pay for the class in 1st day of work.

#### **MAY 19TH AND MAY 20TH**

**9AM-5PM**

LUNCH 1 HOUR FROM 12:30-1:30

\$200 For the weekend

\$150 For currently enrolled students

Instructor Dave Nugent (Nuge ) has 14 years of experience in various aspects of film production. He got his start as PA at age 42. He quickly moved up the ranks being invited into the locations department, art department, then settled in craft service and transportation. Nuge is both a union member of the Teamsters 174 and with the IATSE 488. Nuge opened Go-4 Nuge Production Rentals in 2006, where he supplies the film industry with customized production motorhomes, box trucks, production supplies, walkie talkies and craft service...Nuge currently supplies the industry with a PA List ...which graduates from this class will be introduced in a special section.

\*\*\*\*\*

"I signed up for Dave Nugent's PA class in June of 2015. At that time I had a single connection to the local film industry, and zero experience on set. By the following Monday, I was working full time as a freelance PA, and 3 years later, I've worked up to production coordinator. Whenever someone asks how to get started in this field, I give them the same advice: talk to Dave Nugent. I jump started my career by joining Dave for one weekend that gave me the tools I needed. If you're trying to work in film in Seattle, there's no better gateway than this. No matter what department you're interested in, no matter your background, this class provides the skill set to make you a top candidate for these entry level positions. Your first day of work will pay for the class."

-Peter M.

#### **Updates in the Motorhomes**

Papa and Mama have recently had brand new stereo systems installed.

Papa, Mama, and Baby Moho are now equipped with Amazon Echos.

All three motorhomes are in the process of having their makeup mirror lights updated. Mirror lights will soon be able to be set to WARM, COOL or DAYLIGHT.

#### **NEW Makeup Mirrors**

We've added three lightweight professional makeup mirrors into our inventory. Each mirror comes with three lights that can be individually set to WARM, COOL, or DAYLIGHT as well as a dimmer to control all three.

These mirrors will become out new medium size, the old medium mirrors are now Large and the heavier EXTRA Large

mirrors have been retired.

#### Magnetic Phone Holders

Magnetic phone holders have been installed in all vehicles in the fleet to allow for easy hands free navigation.

Don't have a metal strip on your phone or phone case? Worried that your phone won't work with our new magnetic phone holders? We've got you covered! We will be keeping metal stickers in various sizes at The Compound for drivers who need them. STOP BY AND ASK FOR YOUR FREE STICK ON METAL PLATE.

### Fleet Changes.....!

There have been some major vehicle changes in Nugeland!  
This winter we've said goodbye to the 18' Supercube, black passenger van, silver passenger van, and the stow&go minivan!  
Not to worry! We've added a 2017 Ford Transit 15 passenger van to help accommodate all your people moving needs....MORE VEHICLES TO COME!

### Wireless Comm System

Go-4 Nuge has added a handsfree wireless communication system to our rental inventory.

We are teaming up with Steve Chambers, who recently acquired this system from Boeing. It's a closed headphone with a mic and an open channel so that you are hands free to talk with one another. These system are military grade, with noise reduction.

In addition, it will be able to interface with our walkies so an AD or Director can communicate with a stunt driver or camera operator, , art dept special fx etc..... one who may not have use of their hands for the normal push to talk button on the standard walkie or two-way radio system.

Kits will include the requested number of headsets (2 headsets up to 16), comhub with basestation to program headsets together, and charger.

Walkie to comhub connection cable only available upon request as supplies are limited.

## Wireless solution components

Wireless pushback system shown here for communication among the tug operator, wing walkers, and flight deck. Similar configurations available for deicing and maintenance. All systems are programmable to user specifications.

**Weather-tight Pelican Hardigg™ storm case:** Includes convenient built-in battery charger, as well as wheels and collapsible handle for complete portability, storage, and protection

**Bright red "Remove Before Flight" flag:** Reminds ground crew to retrieve the system after pushback; includes aircraft hanger hook

**ComHub™ and bag:** Padded sides protect the aircraft; water-resistant design protects the communication system from inclement weather

**Headsets:** Black: Wing Walkers; Red: Tug Operator

- **800m line-of-sight range:** Eight times the distance and over 60 times the coverage area of Bluetooth
- **Completely wireless and antenna-free:** No external antennas or cumbersome belt-pack wires
- **1.8GHz DECT wireless technology:** Crystal clear, interference-free, and secure communication
- **Closed cell foam ear seals:** Remain comfortable after hours of use
- **24-hour battery with two-hour charge time:** Ensures the system is ready to use at all times
- **Secure push-to-talk/push-and-hold button:** Requires a solid push, eliminating the chance of accidental transmissions
- **Noise-canceling electret microphone:** Programmable microphone gain for optimal clarity and a flexible boom for precise placement

## Maintaining the Self-Service Rental Model

*Help us help you*

- As we starting getting into busy season this Spring and Summer please remember to keep your supply orders updated via the [orders@go4nuge.com](mailto:orders@go4nuge.com) email. Help us keep track of our inventory by NEVER taking items from the cube without getting approval first.
- **CODES CHANGING AT THE CUBE.** In order to keep our container storage secure we will be changing the codes more frequently this coming year. When you have confirmed your order via the Orders email you will be given codes and instructions for pick ups. It is very important that those instructions and codes get passed onto your PAs every time.
- A quick reminder to please report any broken or dirty production supplies asap so they can be taken care of.
- Lastly, we want to extend a thank you to everyone who has been following our after hours policy and notifying us about late night or early morning pickups (after 10pm and before 6am)

## These are some of the Productions that have been Going-4 Nuge

Go-4 Nuge Production Rentals is proud to have been involved in the following productions:
