Instructor Dave Nugent (Nuge) has 14 years of experience in various aspects of film production. He got his start as PA at age 42. He quickly moved up the ranks being invited into the locations department, art department, then settled in craft service and transportation. Nuge is both a union member of the Teamsters 174 and with the IATSE 488. Nuge opened Go-4 Nuge Production Rentals in 2006, where he supplies the film industry with customized production motorhomes, box trucks, production supplies, walkie talkies and craft service...Nuge currently supplies the industry with a PA List ...which graduates from this class will be introduced in a special section.

"I signed up for Dave Nugent's PA class in June of 2015. At that time I had a single connection to the local film industry, and zero experience on set. By the following Monday, I was working full time as a freelance PA, and 3 years later, I've worked up to production coordinator. Whenever someone asks how to get started in this field, I give them the same advice: talk to Dave Nugent. I jump started my career by joining Dave for one weekend that gave me the tools I needed. If you're trying to work in film in Seattle, there's no better gateway than this. No matter what department you're interested in, no matter your background, this class provides the skill set to make you a top candidate for these entry level positions. Your first day of work will pay for the class."

Price Increase: Indoor Mats

Recently our indoor mat maintenance costs have sharply increased. Due to this extra cost we will now be renting indoor mats for **\$10/day**.

Maintaining the Self-Service Rental Model

Help us help you

- Due to our small staff and self service model, we rely heavily on feedback by you, our customers. Please notify us if any supplies are broken, dirty, or have fallen below our Nuge standard.
- **CODES CHANGING AT THE CUBE.** In order to keep our container storage secure we will be changing the codes more frequently this coming year. When you have confirmed your order via the Orders email you will be given codes and instructions for pick ups. It is very important that those instructions and codes get passed onto your PAs every time.
- A quick reminder to always ask before leaving any non Nuge items at The Compound or The Cube. We appreciate crafty, house protection, and supply donations, but we do not want to be considered a dumping ground for all unwanted supplies.
- This year Dave has been working overtime teaching PA classes and training the next generation of film enthusiasts. **ASK US ABOUT OUR NEW PA LISTS.** With three classes taught so far this year we have dozens of eager students ready to help you on set.
Email us at orders@go4nuge.com for their info.

What's the Nuge Word?

Ok, so many of you have heard some rumors of our office compound moving. Its been a rough road trying to find commercial real estate in this city and even in the region. We were very close to closing on an incredible property in South Park, but only to find out through an environmental attorney that it was connected to the Duwamish River Super Fund clean up. As owners we could have been responsible for part of the \$750,000,000 clean up cost....so we ran away quickly.

Since then we have made several offers and either backed out because of zoning issues or we have lost out to bidding wars or cash offers...

The purpose for moving is so that we can expand the Nuge World and also be in one location for convenience sakes plus we can monitor our production supplies a little closer.

We are currently in mutual agreement with almost an acre property in Tukwila. We will have 45 days of feasibility then move into the financing stage....we will hopefully have more news on this in the next Nuge Letter come January, 2019.

Have something you want posted in the Go-4 Nuge Letter...please submit to Orders@Go4Nuge.com for consideration...
