The News at Nuge

Tents Tents and more Tents - Go-4 Nuge is totally inTents...!!!

We have been lucky enough to purchase the complete inventory of **New Image/John Matthews**. We now have a total combined inventory of over 50 tents.
The tent inventory now includes:

30+ - 10 x 10's
12 - 10 x 15's
10 - 10 x 20's

We also acquired the container they have been stored in

In addition to the tent inventory we now have

5 - 2000 watt generators
2 - 3000 watt generators
2 Senior Magliners w/Shelves
1 Junior Magliner w/Shelves

New COVID Safety Inventory Items

We are always on the look out for items that will help our customers increase their safety on set. We Are happy to announce the following items have been added to our inventory.

AIR SCRUBBERS

AIR SCRUBBERS use heavy duty Hepa filters to remove 99.97% of harmful particles from the air. They are ideal for use on set, in a production office or in a motorhome.

Hand Washing Dual Sink

Portable hand washing stations are becoming a popular (and often required) option for locations where indoor sinks are not available. The 22.5 gallon tanks lasts an estimated 1,400 pumps of water.

Automatic Hand Sanitizer Dispenser

These very lightweight units are a necessity on set and their touch-free dispenser promotes safety and hygiene on set. These units come pre-filled with sanitizer and refill bottles for multi day shoots are available for purchase.

Visit our website for a full list of our [Safety Inventory Items](#) and our [COVID Related Expendables](#).

We are excited to offer Online Ordering from our website www.Go4Nuge.com!

After going through a slight makeover and new software integration you can now place your order via our website and quickly receive a quote!
You will still be able update your order/quote right up to the day of pickup!

We are also happy to finally offer online Document Signing. This one is a really big one.

This new ordering system will streamline and simplify the rental process from start to finish....but please bear with us as this system is new to us and we will still have some bugs to work out.

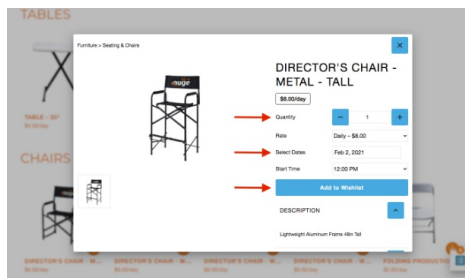

So Whats Changed?

- **Online Ordering.** Go to our website and add items to your "Wish List." Then submit your list to reserve your items and receive a quote. It's that simple! For a detailed step by step guide to our new system scroll down to the next section.
*While we get our customers used to the new system, we will still be taking orders through our email following the old protocol, but we encourage you to start making online ordering your main method of requesting items.
- **No more individual rental agreements.** Our customers have been complaining for years about the document signing and we've heard you! We will only have one rental agreement with one signature from now on.
- **No more credit card authorizations.** Payment for new customers will be required up front before or day of pickup. Options for new customers will be credit card or ACH Transfer and you can save a credit card on file for a future invoice or L&D. Returning customers will have the option of Net 30.
- **Deposits.** Multi week or Indie shoots will be required to put down a small deposit before picks up start and full payment won't be required until after wrap.
- **Price Sheet.** With this new ordering system we will no longer require customers to generate their own quotes using our Self Service Estimate Form. Using the website Wish List will automatically generate a quote in our new system which we will send to you. If you'd like to view all of our pricing in one document please request a price sheet or download it from the [paperwork section](#) on the website. The price sheet still generates a total at the bottom like the old estimate sheet. Please do not send us the price sheet. It is a budgeting tool for you to use before you're ready to send in an official order.

Please don't hesitate to email us with any and all questions you may have
Orders@Go4Nuge.com

How To Place An Order From Our Website

1. Add Items to Your Wish List

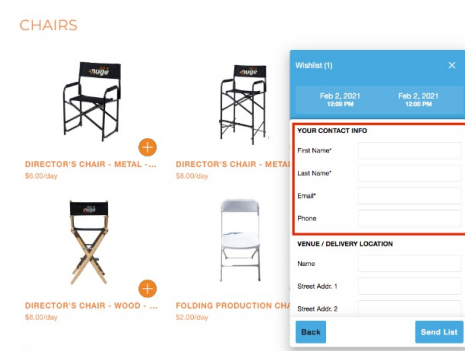

Click on the item to view details, select the quantity and dates, and click add to wish list!

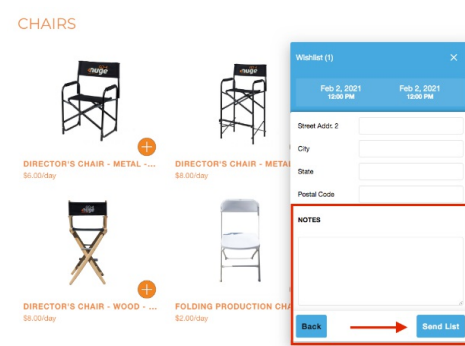

For quick adds simply click the orange plus sign to added to your wish list in the bottom right corner. You can adjust the dates before sending in your wish list.

2. Request A Quote

When you're ready to send your list add your contact information and any location information. Although our check out sheet says "Delivery Location" please keep in mind that we are a very small staff and delivery is not a service we can offer right now unless under special circumstances.

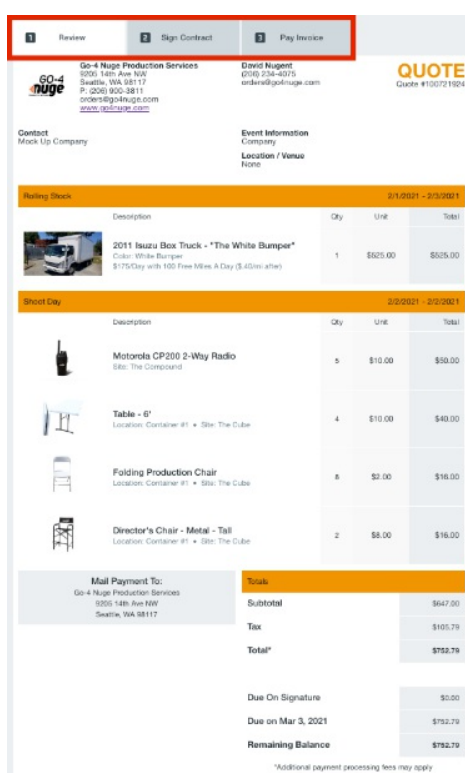

Please use the "Notes" section to add any information you'd like us to include on your invoice (Job Name, Job #, PO), any special requests, or questions you may have regarding your order.

When your list is ready hit send!

We will review your order, determine if all requested items are available, and send you back a quote. We guarantee a response within 24 hours, but we usually respond within the hour of a request.

3. Review, Sign, and Select Payment

Make sure the order is correct...

Read the Rental Agreement and electronically sign at the bottom...

Select your payment method and thats it!

Check out go4nuge.com to make an order and try out the new system yourself.

NUGE PA CLASSES

Due to covid precautions we will not be having any in person classes in the near future, but if you, or someone you know, would like to be updated with information about our PA Class please email name and contact information to our PA Class email

paiclass@go4nuge.com

I have been lucky enough to teach many well attended Production Assistant Classes since we began offering them five years ago. It's been a huge success and I am honored to carry this torch for the film industry.

Over the last year some of you have heard me talking about taking the PA Class to an online format... So I have teamed up with Goodstudio and together we're producing a comprehensive video course that will be able to reach a broader body of students around the country and maybe jumping into Canada.

As most people know, a production assistant is an entry level position to the wonderful world of creating with still and moving imagery in order to tell a story. That story could be narrative, documentary, corporate video or in house information, commercial, or catalog. With each class, what has stood out to me the most is the conversation is not just about how to be a good PA... it's also a discussion about the passion for the film industry. One of my main focuses has been to make a safe space to discuss one's passion as its directly connected to the participants motivation for coming to the class.

One of our goals is to expose our students to the film industry through hands on work as a crew person. We intend to market this to high school and college students as well as others who may want to explore a career change. Our focus is not on film making, but on getting started in the film business as a crew member. We will cover what that means, what it takes, how to get there and how to move into other crew positions.

If you or someone you know is interested in the online class PLEASE REGISTER!

While we are still in the process of filming our online courses, reserving your spot is immensely helpful for us to get an insight to the demand for this service.

Washington Filmworks Launches Media Mentorship Program

"This year Washington Filmworks will pilot a Media Mentorship Program designed to better support BIPOC and people from underrepresented communities gain access to opportunities in the statewide film industry. In its inaugural year, Washington Filmworks will partner with [Northwest Film Forum](#) and the [Spokane Film Project](#) to recruit the 8 program participants. Washington Filmworks will also work with our union partners at I.A.T.S.E. Local 488 to identify a diverse group of mentors to assist participants both on and off professional film sets."

Whats The Nuge Word?

Well many of you have heard rumors that we might be connecting to a future studio in the region...well while that reality may happen some day, it probably won't be happening within the next several months....

However we still are on a major quest to either purchase or lease property to move Go-4 Nuge to...while I would love to tell you the all the details of what I have at hand, as I am a fairly transparent person by nature and maybe to a fault, but we are hoping that by the next Spring Nugeletter that we will be announcing some major news on that forefront.

I have taken my focus of passing the torch of Go-4 Nuge to any prospective buyer until after we get moved and settled in to a new location and even then I may decide to keep at it for a few more years who knows... Hopefully see you all on set soon and please stay safe, mask up and keep 6' away from me...Hahaha!

**And of course...
Here is our fleet...**
