Maintaining the Self-Service Rental Model

Help us help you

Over the last few months we have reorganized the storage containers and want to keep them looking neat. With this said please put your rented items back in the place and position you found them.

Please reiterate to your PAs doing drop offs that production supplies need to come back CLEAN and DRY.

We understand that wrapping up happens quickly and cleaning can be put on the back burner. For this reason we keep a small stock of cleaning supplies in container 1 for items that need to be wiped down or dried off.

Coolers, in particular, are in need of a little extra attention. We've noticed many of them are being returned with melted ice inside. Wipe them out so our coolers don't become the victims of mildew.
